

Mircea Vasiliniuc

Software Engineering Manager | Lead Mobile Engineer

hello@mircea.app +40745652950 Valencia, Spain / Cluj-Napoca, Romania mircea.app

EN-C2, DE-B1 Extended Resume

Summary

A product oriented contributor, a software engineering manager and a long-time promoter of automation, from the early days of scripting to today's AI-driven workflows. My roles included department manager, delivery manager, lead mobile engineer, tech consultant, administrator, co-founder and mentor.

My latest major role involved building a department from the ground up, growing it to 34 specialists while delivering a suite of banking & trading mobile apps reaching 1.2 million users. The department and its products were built on strong foundations, designed to support growth and be resilient to industry shifts.

What I am interested in:

- Digital transformation initiatives
- Building / Leading highly specialised teams
- Complex ecosystems, be it in technology, stakeholder management, operations or market dynamics
- Designing automation while preserving human agency and system integrity / Harness Engineering

Skills

Programming Languages

Swift, ObjC, Kotlin, Python, Bash, C/C++, Java, TypeScript, JavaScript, Rust

Data/Query/Markup Languages

JSON, XML, YAML, SQL, GraphQL, proto, Markdown, html, CSS

Databases

SQLite, CodeData, CloudKit, Firebase Suite, MySQL, PostgreSQL, MongoDB

CI/CD

Gitlab CI/CD, Github Actions, Jenkins, Fastlane

Design Systems

Apple Human Interface Guidelines, Material Design, WCAG2Mobile

Security

OWASP, MASVS, Secure Enclaves, Rooting, Device Binding, Biometrics, Pinning, MiFID II, PSD2/SCA, DPANs

Applied AI

Coding Agents (Codex, Cursor, Claude, Mistral Vibe), MCP, Agentic Skills, Context Engineering, LLM-MAS, RAG

Machine Learning

TensorFlow, CUDA, PyTorch

Experience

iGama Apps Valencia, Spain

Technical consultant Oct 2025 – Present

• Create MCPs exposing regulations (e.g. PSD2) for banking/trading software development or mobile security guidelines (e.g. OWASP MASVS)
• Create templates for agentic safety execution gates
• Create agentic skills to support mobile development
• Consult on the technical recruitment of mobile developers

Nexttech Cluj-Napoca, Romania / Nuremberg, Germany
Apr 2019 – Jul 2025

Head of Mobile Engineering

- I was responsible for building, leading and representing the Mobile Department, consisting of 34 mobile devs
- Lead tech contributor on major banking/trading projects, across development, organizational, and product layers
- Oversaw delivery across multiple banking and trading mobile projects

BNP Paribas Personal Investors Nuremberg, Germany
Technical Consultant Feb 2016 – Apr 2019

- Lead developer in the construction of a suite of iOS customer-facing (B2B) libraries for banking/trading
- Lead developer for Consorsbank Banking App (DE) in area like Card Management, Apple Pay, User Data Security
- Led code management (Git migration, branching, training), code reviews, development guidelines, unit testing standards, client-side architecture, docs, release management and customer integration for the mobile team

Garmin Cluj-Napoca, Romania
Senior iOS Developer Sep 2013 – Feb 2016

- Mostly involved in the development of Garmin Connect™ Mobile v. 2.x. Role also involved coordinating other iOS developers. Technologies: Gerrit, JIRA, Xcode SDK, Fabric, Jenkins, C/C++, Obj-C. Mobile architectures: MVVM, MVP

MoSync AB Cluj-Napoca, Romania / Stockholm, Sweden
Mobile Software Developer Oct 2012 – Nov 2013

- Developing and maintaining parts of the code library used for creating cross-platform mobile applications. Involved in iOS, Android, Symbian and Windows Phone side. Worked with C\C++, Obj-C, Java, C#, Ruby, Python.

Garmin Cluj-Napoca, Romania
C/C++ Developer Oct 2011 – Dec 2012

- Developed a navigation based application for the bada OS mobile platform
- Developed performance measurement tools and identifying/solving performance issues for an automotive app

Neusoft Mobile Solutions Cluj Napoca, Romania
Mobile Software Developer Mar 2009 – Oct 2011

- Developed and maintained Nokia Embedded Applications (Ovi Suite), which are Symbian OS applications.
- Developed Mobile Application for automotive crash detection using Qt SDK (C++)
- Developed and released multiple native iOS apps, either proprietary product of Neusoft or for other partners

Xoomworks Ltd Cluj-Napoca, Romania
Assistant Programmer Jul 2008 – Jan 2009

- Developed a web application for time-sheets (using ASP.NET)

Education

Technical University of Cluj Napoca Master of Science - MS
Artificial Intelligence Cluj-Napoca, Romania • Oct 2021 – Jul 2023

Babeș-Bolyai University Bachelor
Computer Science Cluj-Napoca, Romania • Oct 2006 – Jul 2009

Publications

Case Study: Using AI-Assisted Code Generation In Mobile Teams Jul 2023
The aim of this study is to evaluate the performance of AI-assisted programming in native mobile development teams.
